Dear Students,

Due to the outbreak of the new Coronavirus (COVID-19), the theoretical parts of the courses will be carried out by distance education methods starting from 06.04.2020. In this user guide, you can find information about how to use the "Istanbul University Live Course System" that we have prepared specifically for you to progress without interrupting your education process.

Preliminary Information

T. C. Istanbul University, Live Course System has been put into service. Issues to be considered primarily are as follows.

Minimum system requirements for Desktop

- Processor** : 1.5 ghz
Ram : 512 mb (1 GB Recommended)
Hdd : min. 10 gb free space
Internet : min. 2 Mbps and above
Op. System. : Mac OS X 10.12, 10.13 and 10.14 -

Make sure that the camera, microphone and computer equipment you will use during the training are not faulty.

If you are using a wireless connection, a wired connection is recommended to avoid problems with the connection.

It is recommended to **use Google Chrome, Mozilla Firefox and Internet Explorer** browsers as internet browsers.

You can download and install these browsers from the links given below.

You can download the **Google Chrome** internet browser at <http://www.google.com/chrome>

You can download the **Mozilla Firefox** internet browser at <http://www.mozilla.org/tr/firefox>

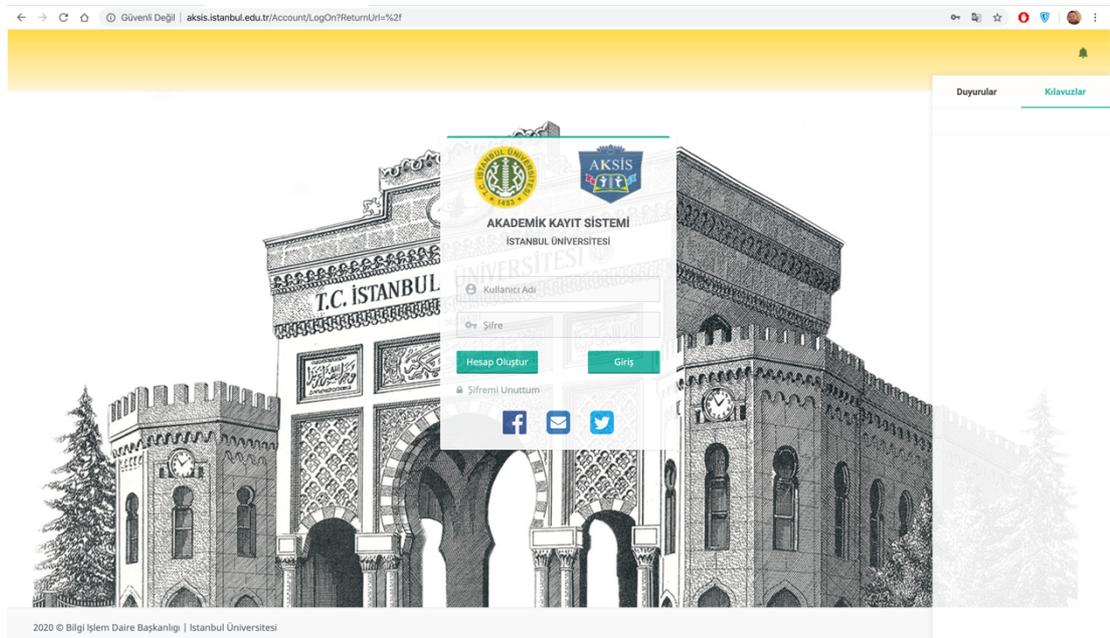

How to Login to the System

"Istanbul University Academic Registration System (AKSİS)" is accessed by typing "**aksis.istanbul.edu.tr**" in the address bar of the browser.

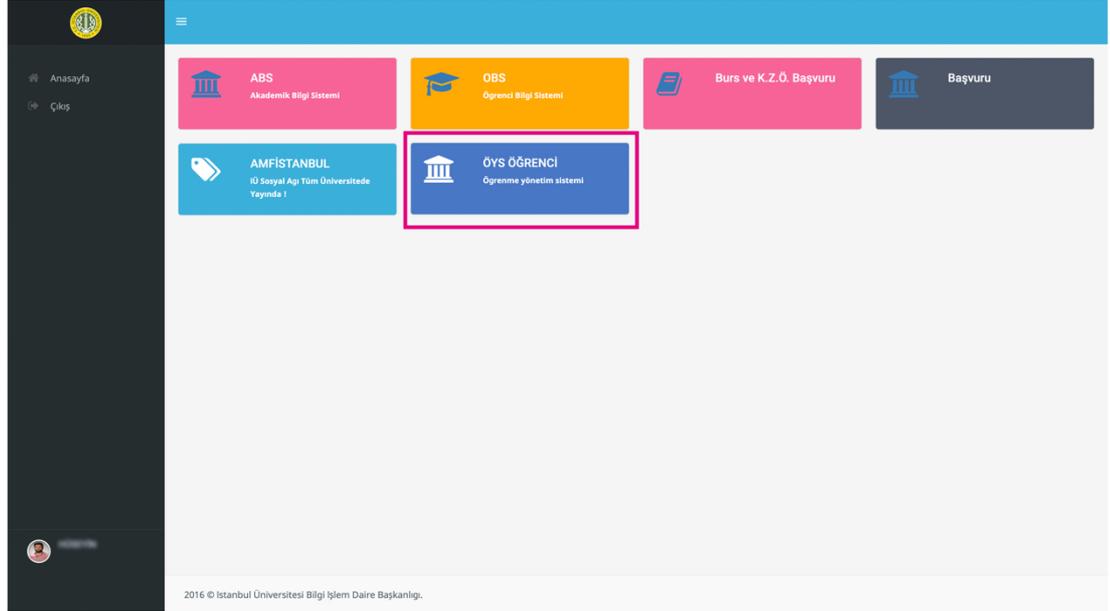

In the **User Name and Password** areas on this screen, the information that our students previously used to login to the system is written and the **Login** button is clicked.

How to Login to the System

Click on the **ÖYS Student - Learning Management System** button on the screen that opens.

Viewing the Course List

The courses you are responsible for are listed on your screen. On this screen;

The courses without a course content have the expression "No Content Yet". Therefore, attendance to such courses is still passive.

In the courses with a course content, "**Name of the Instructor**" is written and when you click the "**Go to Class**" button, **links to the Live Class** can be accessed from the page that opens.

The screenshot displays the Istanbul University Learning Management System (LMS) interface. At the top, there is a green header with the Istanbul University logo and the text "ISTANBUL ÜNİVERSİTESİ Öğrenme Yönetim Sistemi". Below the header, there is a navigation bar with "Anasayfa", "Ü. Anasayfa", and "AKSİS" links. The main content area is titled "Anasayfa" and "İstanbul Üniversitesi - Uzaktan Öğrenme Yönetim Sistemi". It features a grid of course cards, each with a graduation cap icon, the course name, program, and instructor. Each card has a "Derse Git" button with a right-pointing arrow.

Participating in the **Live Class**

If **the instructor** has not started the course yet, you will see a window like this. You will be able to attend the course **when the meeting is activated by the instructor,**.

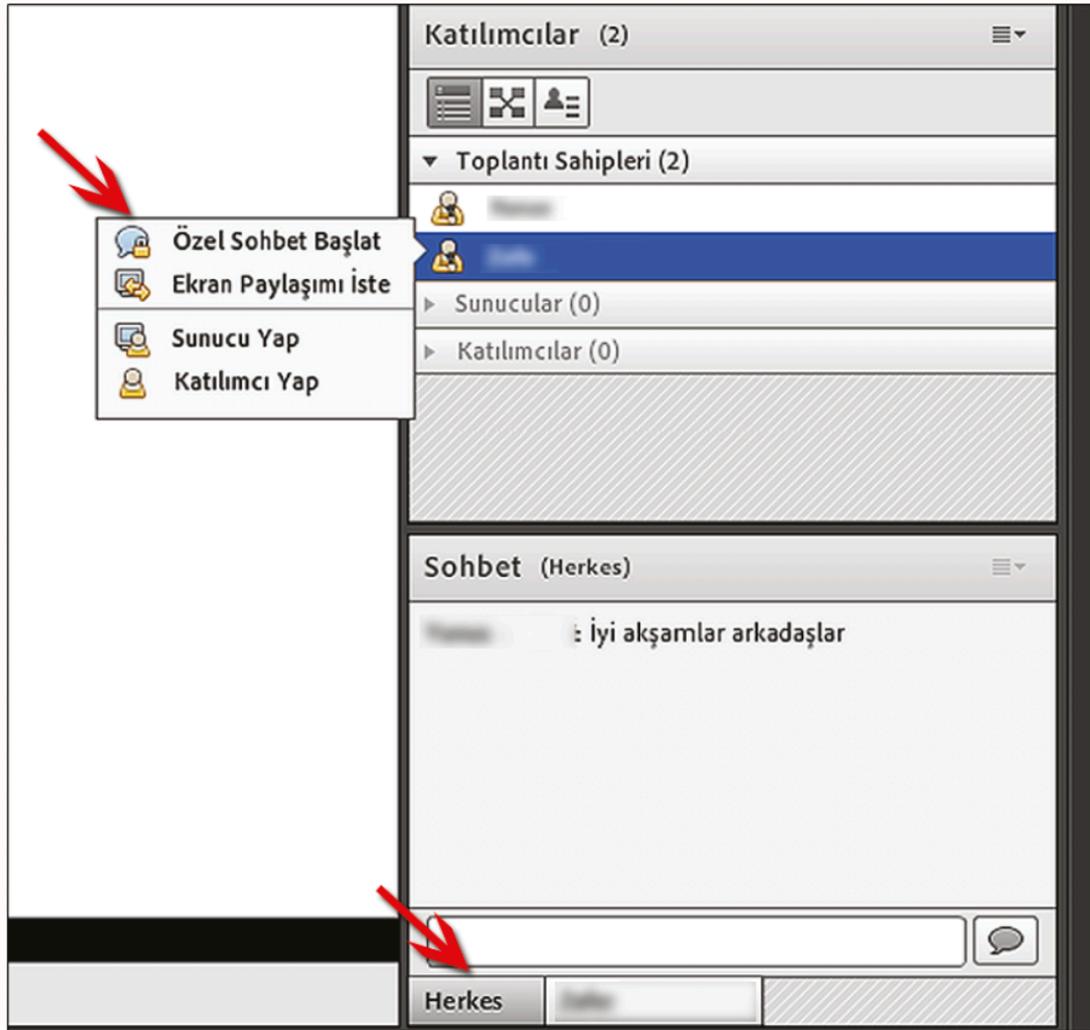

KÜLTÜREL ANTROPOLOJİ

Toplantı henüz başlamadı. Toplantı sahibi geldiğinde toplantıya erişebileceksiniz. Lütfen bekleyin.

The Chat Area

The chat area in the live lesson is the area where all participants can chat with each other via private or open message. The messages you write in the chat area are visible to all participants. You can send **a private message to the person you choose** from the participant list. Only those you send will see these messages and these messages will be on separate tabs in the chat window. When you send messages you want **all participants to see**, you need to select the **"Everyone"** tab in the chat window and write here.

Sharing Files

The files shared by the instructor are found in the **"Files"** window. Click on the content you want to download once to make it selected. Download the selected content to your computer by clicking the **"Save to My Computer"** button at the bottom of the window.

Even though I got the permission to speak in the live lesson, my voice does not reach the class. What should I do?

If you have this problem and you are sure that your microphone is working, first check if it is plugged into the correct input.

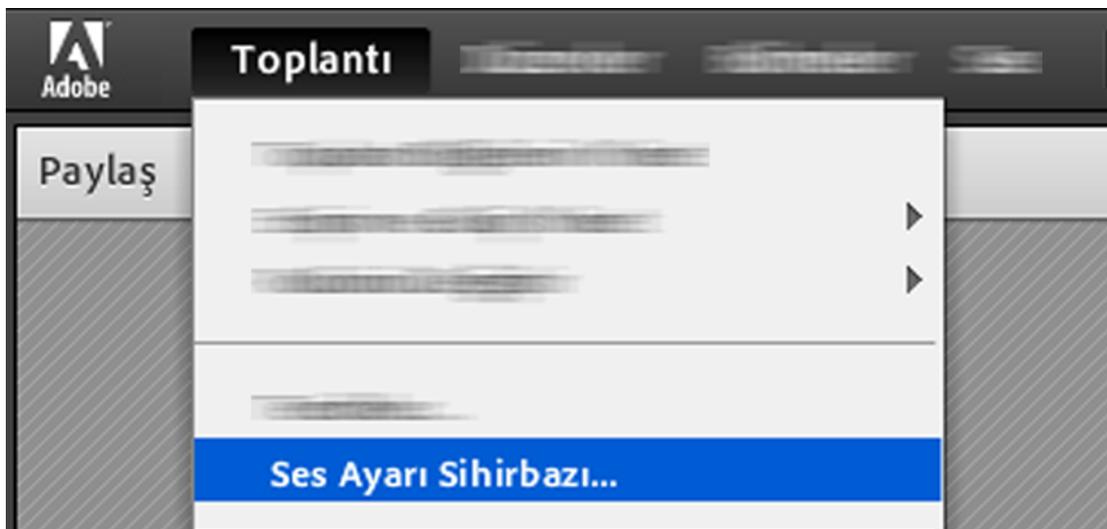

If the problem persists,

Click Start> Control Panel> Hardware> Sound> Manage Audio Devices and click the **"Record"** tab in the window that opens, here you will see the information about your microphone. Right click on it and set it as default.

If the problem still exists, finally click on the **"Meeting"** tab at the top of the **Live Lesson** page and click on the **"Audio Setting Wizard"** option. Click on **"Next"** in the window that opens and

1-Go to Step 1 and click the **"Play"** button to test the sound. Clicking the **"Next"** button again

2-Go to step 2 and choose the microphone. When you have completed the microphone selection, click the **"Next"** button to complete the test step by step.

Live Course Page Does Not Open. What should I do?

If your **live course** page doesn't open, you can check if the flash player in your computer is installed or updated.

You can install or update the flash player at <http://get.adobe.com/en/flashplayer/>.

For the Live Course application to work properly, the **Adobe Connect Add-in** must be installed on your device. You can access the plugin from the link below:
